Making of – new Railway Line in Rotkreuz

On Friday 4 July, tracks for a new railway line have been moved right next to the beer garden of the APARTHOTEL in Rotkreuz.

Kurt Müller, owner of the hotel, didn't want to comment yet on the background circumstances to the track laying. 'Whether this will lead to a new Stadtbahn rail connection between Rotkreuz and Hünenberg, a direct line to the Rigi or even the creation of the shortest railway line in Switzerland, we're not letting on yet,' he added with a wink.

On Friday 18 July, a heavy load from Luzern arrived in Rotkreuz. As of now our APART waggon can be admired next to the APART beer garden.
